

May 29, 1958

Mr. Elton E. Richardson
Route #1
Cedar City, Utah

Dear Mr. Richardson:

RE: CEDAR CITY VALLEY DIST.

This acknowledges receipt of your letter dated May 26, 1958, in which you inquire concerning the purchase of shares of stock in the North West Field Irrigation Co.

From your short letter it would appear that you have moved the use of this water from the lands of Millard Halterman and Horton Haight. If this has been done on a temporary basis a temporary change application should be filed by the Irrigation Company to cover the transaction. If this is a permanent change of lands the Irrigation Company should file a permanent change application to include your lands and to delete the lands of Mr. Halterman and Mr. Haight included in the transaction. Since this change would be for your benefit it would appear that you should bear the cost of the change.

We are enclosing a change application form as you requested in your letter. In preparing the form be sure to refer directly to the awards set out in the Cedar City Valley Proposed Determination so that the records of this office and your records may be kept in proper order.

Yours truly,

Hubert C. Lambert
DEPUTY STATE ENGINEER

State Engineer's Office
Salt Lake City, Utah.

Att. Mr. Hubert Lambert.

Dear Mr. Lambert:

In 1952 I purchased 19 shares of water from Millard Halterman. In 1956 I purchased 10 shares of like water from Horton Haight. This water was issued through the Bull-dog Company, originally the North-West Fields.

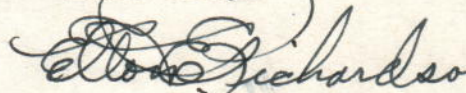

I am now using this water on part of Sec. 11, T35S, R11 W. which lies outside the original designated area.

Will you please inform me of the necessary legal procedure to secure this water for permanent use on this property, (Sec. 11.).

If application for change of point of diversion is necessary, would you please send me the blanks to fill out. etc.

Thanking you, I remain.

Yours truly.

Elton E. Richardson
Rt. #1
Cedar City, Utah.
